

TRIBAL INDIA

L-63 Class Notes | Paper 2 | Handout 4

Ch 6.3 R&R Problems

Ch 7.1 Constitutional Safeguards

Ch 7.2 Social Change

Ch 9.1 Development Programmes

Sarrthi IAS | Nataraj Sir | Anthropology Optional Foundation | UPSC CSE 2026

= Handwritten class annotation

CHAPTER 6.3 — PROBLEMS OF REHABILITATION & RESETTLEMENT

R&R ISSUES

Land Identification

Land Records

PAP Identification

Loss of Livelihood

Loss of Home

Stakeholder Exclusion

Grievance Redressal

Key Facts: PAPs estimated at **50–100 million** persons. No reliable data on how many resettled or rehabilitated. R&R burning issue since pre-independence; post-1947 massive infra projects caused involuntary displacement.

Resettlement vs Rehabilitation

Aspect	Resettlement	Rehabilitation
Focus	Spatial adjustment — <i>where</i> to move	Holistic restoration — <i>how</i> they live after
Concern	Physical relocation only	Economic, social & cultural well-being
Approach	Logistical exercise	Livelihood, dignity, standard of living
Policy	Land-for-land / house-for-house	National R&R Policy, 2007 — minimize displacement

7 KEY R&R ISSUES

#	Issue	Key Points
1	Land Identification	Eminent domain used; mining/hydro projects can't shift but boundary compromise possible; forest + agriculture land acquired
2	Land Records & Compensation	Land = state subject; Patwari records rarely updated (every 30 yrs); last traded value used; forest dwellers have NO land records → ineligible for compensation
3	PAP Identification	Owners not traceable; sharecroppers/daily wage earners excluded; generational cultivators lack title; outsiders buy land to claim PAP status
4	Loss of Livelihood	Not just monetary loss but <i>style of earning</i> ; land = economic security + food security + barter; traditional wisdom passed through generations lost
5	Loss of Home	Ecological incompatibility; no traditional livelihood; alienation from host community; no legal rights in resettled area
6	Stakeholder Exclusion	PAPs illiterate but have traditional wisdom & dignity; decisions imposed by project authorities; no participation in planning
7	Grievance Redressal	No genuine mechanism; PAPs lose trust in entire R&R process

CASE STUDIES — R&R

Baiga **Gond** **Kanha Tiger Reserve, MP** **Forced Relocation (2015)**

Jan 2015: ~450 settlements relocated under forest conservation program. Criticized as **forced eviction** despite govt claiming voluntary relocation. Aimed at better facilities outside reserve.

Jenu Kuruba Soliga Mysuru, Karnataka Rehabilitation Delay (2020)

2020: Adivasi groups protested delays in **rehabilitation deeds & land title**. Issues: non-declaration as revenue villages, lack of land allotment under Mastigudi rehabilitation, fund diversion by dominant groups. ~210 families affected. Appeals to NCST.

Hirakud Dam, Odisha (1950s) Early R&R Failure

22,000+ families displaced with little rehabilitation. Later shaped national R&R policies.

SOLUTIONS FOR R&R

Solution Type	Details	Example
Land for Land	Best option — restores income in original lifestyle	Rourkela Steel Plant (1956): Oraon, Kharia, Bhumij tribes resettled within 5 km of original villages with land + houses
Self-Employment	Most available option; carpet weaving, dairy, poultry, sericulture, pisciculture, handicraft	Demand for goods rises with project-dependent population inflow
Project Employment	Restores & improves standard of living	Ho community in Singhbhum, Jharkhand employed in Zinc Factory — social unity improved but cultural changes (Maghe festival restrictions)
Resettlement Choice	PAPs should choose settlement location; factors: livelihood, market, health/education access, space for animals & expansion, community land	Many PAPs rejected fully-built resettlement colonies

Key Quote: People need much **empathy** rather than **sympathy**. Restoration of livelihood is not merely monetary — it's restoring the *process* of earning.

CHAPTER 7.1 — CONSTITUTIONAL PROVISIONS FOR SCHEDULED TRIBES

ST BACKWARDNESS INDICATORS

High IMR (41.6)

Low Literacy

Below Poverty Line

Less Land Access

Low Income (subsistence)

NFHS Data: ST Progress (2005-06 to 2019-21)

Indicator	2005-06	2019-21	Change
Infant Mortality Rate	62.1	41.6	▼ Improved
Under-5 Mortality Rate	95.7	50.3	▼ Improved
Institutional Delivery	17.7%	82.3%	▲ Improved
Immunization (12-23 months)	31.3%	76.8%	▲ Improved

CONSTITUTIONAL SAFEGUARDS FOR STs

Category	Article	Provision
Foundation	Preamble	Socialist/Justice — Social, Economic, Political equality of status & opportunity
	342	President may declare a group as STs via notification
Definition	366(25)	Definition of Scheduled Tribes
Educational, Economic & Employment (Part II-B)	15	Prohibition of discrimination on grounds of religion, race, caste, sex, place of birth
	16	Equality of opportunity in public employment
	19	Protection of freedom of speech
	46	Promotion of educational & economic interest of SCs, STs
	335	Claims of SCs/STs to services and posts
Political (Part II-C)	330	Reservation of seats — Lok Sabha
	332	Reservation — State Legislative Assemblies
	334	Reservation & special representation — cease after 10 years (extended)
	243D/243T	Reservation in Panchayats & Municipalities
Monitoring (Part II-D)	338A	National Commission for Scheduled Tribes

Lokur Committee (1965) — Criteria for ST Identification

#	Criterion
1	Indications of primitive traits
2	Distinctive culture
3	Geographical isolation
4	Shyness of contact with larger community
5	General backwardness

Criticism (2014 Task Force, Hrusikesh Panda): Lokur criteria found **obsolete, rigid & condescending**. Terms like "primitive" and "shy" fail to reflect modern tribal realities. Issues: lack of anthropological expertise, inconsistent historical records, administrative inconsistencies across states.

Panda Committee — Proposed New Criteria

#	New Criterion
1	Socio-economic & educational backwardness relative to state population
2	Historical geographical isolation (continuing or not)
3	Distinct language or dialect
4	Core cultural identity (rituals, art, folklore, marriage customs)
5	Endogamy (marriage within community)

To be assessed **holistically**, not individually.

Procedure for Inclusion in ST List

- 1 Proposal from **State Government / UT**
- 2 Review by **Ministry of Tribal Affairs (MoTA)**
- 3 Evaluation by **Registrar General of India (RGI)**
- 4 Recommendation by **National Commission for Scheduled Tribes (NCST)**
- 5 **Cabinet Approval**
- 6 **Presidential Assent** to amend Constitution (ST Order, 1950)

Special Provisions — Schedules & State Articles

Provision	Details
Fifth Schedule (Art. 244(1))	Scheduled Areas; Tribal Advisory Council (TAC); Union govt gives directions to states
Sixth Schedule (Art. 244(2))	Tribal areas in 4 NE states (Assam, Meghalaya, Tripura, Mizoram); Autonomous District Councils
Art. 164(1)	Minister in charge of tribal welfare in Chhattisgarh, Jharkhand, MP, Odisha
Art. 371(A/B/C/F)	Special provisions for Nagaland / Assam / Manipur / Sikkim

Legislative Measures

- SC/ST (Prevention of Atrocities) Act, **1989** (amended 2016, 2018)
- Forest Rights Act (FRA), **2006**
- Bonded Labour System (Abolition) Act, **1976**

CASE STUDIES — TRIBAL EXPLOITATION

Chenchu (PVTG) Karimnagar, Telangana Bonded Labour Rescue (2018-2020)

2018: 45 Chenchu tribals rescued from bonded labour at canal irrigation site. 12 survivors received ₹1.5 lakh each under **Centrally Sponsored Rehabilitation Scheme** (1978, revised 2016). Highlights Art. 23 & Bonded Labour Act. **Delayed compensation & weak enforcement** persist.

Paniya Kattunayakan Adiya Nilambur, Kerala Child Labour (2023)

Children aged 8-15 employed in areca nut & banana plantations near Kakkadampoyil, earning ₹300-500/day. Poverty, alcoholism, lack of education → school dropouts. Violates Art. 23 & 24. CPI (Maoist) tried to garner tribal support by expressing solidarity.

CHAPTER 7.1 — EXPLOITATION & DISCRIMINATION OF SCHEDULED CASTES

NHRC 2010 Report: Crime against Dalits every **18 minutes**. Daily: 3 Dalit women raped, 2 Dalits murdered, 2 Dalit houses burnt.

NHRC Statistics (compiled by K.R. Saxena)

37%

Dalits below poverty line

54%

Undernourished

83/1000

Infant deaths

45%

Illiterate

28%

Villages: Dalits barred from police station

48%

Villages: denied water access

6 FORMS OF UNTOUCHABILITY

#	Practice	Details
1	No Physical Contact	No participation in village meetings/worship; separate hamlets; children couldn't attend school with upper castes; had to play drums to pass through streets
2	Ban on Common Wells/Tanks	Separate wells & ponds; depended on courtesy of others
3	Temple Entry Prohibited	Not allowed to enter temple, hear religious discourses, or study religious texts
4	Service Denial	Priests, dhobi (washermen), dom (death rituals) refused service to untouchable castes
5	Food/Water Rejection	Food & water from SC hands not accepted by higher castes
6	Status Incongruence	Constitutional status vs. social stigma; dependent on others for livelihood & survival

CASE STUDIES — SC DISCRIMINATION

Gunnaur, UP **Denial of Water (2016)**

13-year-old Dalit girl & father beaten by temple priest for drinking from temple hand pump. Registered under Sections 323, 324 & SC/ST (PoA) Act.

Sukhidhang, Champawat, Uttarakhand **Food Boycott (2022)**

May 2022: Students boycotted midday meals cooked by **Sunita**, a Dalit bhojan mata. In 2021, upper caste parents had sparked protests → reinstated after SC/ST Act case. Persistent caste-based prejudice against food handled by SCs.

Cuddalore, Tamil Nadu **Dalit Panchayat Chief Discrimination (2020)**

Oct 2020: **Rajeshwari Saravana Kumar**, Dalit panchayat president of Therku Thittai, forced to sit on floor; barred from hoisting national flag; prevented from using official seat. Panchayat secretary suspended; case under Sec. 3(1)(r) SC/ST Act.

Thiruvallur, Tamil Nadu **Flag Hoisting Denied (2023)**

Aug 2023: Dalit woman panchayat president of Aathupakkam prevented from hoisting national flag on Independence Day by former president. District Collector intervened; organized special ceremony at panchayat office.

FACTORS OF SC EXPLOITATION

Category	Factor	Details
Social	Caste system	4 Varnas; Shudras & outcastes/chandalas deprived; justified by "ritual purity"
	Religious literature	Restrictions on reading Vedas; Dalits & women barred
	Psychological	Dalits consider themselves inferior; tolerate exploitation in name of religion
	Lack of awareness	Literacy 66.1% vs national 73%; female literacy 56.5% vs 64.6% (Census 2011)
Economic	Unclean occupations	Leather work & sweeping: e.g., UP — 41,000/46,000 leather workers from Chamars, Dhusia, Jatava; Rajasthan — 52,000/76,000 sweepers from Bhangi, Mehtar, Chura
	Lack of land	No land ownership; agricultural/bonded labour on master's land
Political	Lack of representation	 Ajit Donker & Saxena (2012): Out of 1000 firms, 93% board members from upper castes, 3.8% backward, 3.5% SC/ST

CURRENT INITIATIVES FOR SC WELFARE

Domain	Initiative	Details
Legislative	SC/ST (PoA) Act 1989	Prevent atrocities & hate crimes; amended 2016 & 2018 for stricter punishment
	Supreme Court (Oct 2021)	Justices Dhananjaya Y Chandrachud & BV Nagarathna : Atrocities against SCs/STs "not a thing of the past"
Economic	Startup India / MUDRA	Empower SCs through entrepreneurship, financial support, mentoring
	Dalit Entrepreneur Hub	Business development & growth support for Dalit community
Political	 Sukhdeo Thorat Committee	Addressing educational institution discrimination
	Bhopal Declaration 2001/2	Dalit rights charter
	Dalit Parties	Lok Janshakti Party (Bihar, 2000, Ram Vilas Paswan); Viduthalai Puratchi Party (TN, 1989, Thol. Thirumavalavan)

"The Big 6 Solutions" to End Caste Discrimination

#	Solution
1	Banish untouchability in educational institutions
2	Land for all rural Dalit families (pattas, prevent land mafia)
3	Provide viable assets in cities (rickshaws etc. for casual labourers)
4	Ensure food security (Antyodaya Anna Yojana, NFSA 2013)
5	Implement Sukhdeo Thorat Committee Report
6	Rehabilitate manual scavengers (PoE as Manual Scavengers Act, 2013)

CONSTITUTIONAL SAFEGUARDS FOR SCHEDULED CASTES

Key Differences from ST provisions: Art. 341 (not 342) for SC notification; Art. 366(24) (not 25) for SC definition; Art. 17 — Abolition of Untouchability; No Schedule V/VI or Art. 164/371 provisions.

HOW SAFEGUARDS ARE WORKING

✓ SOCIAL SUCCESSES

- Reservation in education & govt jobs → greater representation
- Laws prohibiting untouchability & discrimination

✗ SOCIAL CHALLENGES

- Social exclusion & atrocities continue
- Low awareness & weak enforcement

✓ ECONOMIC SUCCESSES

- Reservations in entrepreneurship, employment, land

✗ ECONOMIC CHALLENGES

- Economic disparities persist; limited access to resources & credit
- Inconsistent execution of welfare programs

✓ POLITICAL SUCCESSES

- Reserved seats in Parliament, State Assemblies, Panchayats

✗ POLITICAL CHALLENGES

- Tokenism & marginalization; symbolic representation only
- Rarely found in top leadership positions

Procedure for Inclusion in SC List

- 1 State Govt / UT Proposal
- 2 Review by **Ministry of Social Justice & Empowerment (MoSJE)**
- 3 Examination by **Registrar General of India (RGI)**
- 4 Recommendation by **National Commission for Scheduled Castes (NCSC)**
- 5 **Union Cabinet Approval**
- 6 **Presidential Notification**

OTHER BACKWARD CLASSES (OBCs)

OBC KEY FACTS

52% population (Mandal)

41% by 2006 (NSS)

27% reservation

Present in every state

Socially & educationally backward

KEY COMMISSIONS

Commission	Year	Key Recommendation	Outcome
 Kalekar Commission (1st BCC)	1955	Caste as criteria for backwardness	Rejected by govt
 Mandal Commission (2nd BCC)	1980	27% reservation (total should not exceed 50%)	Implemented 1990
Justice G. Rohini Commission	2017	Sub-categorization of OBCs under Art. 340	Ongoing — found inequitable distribution

Rohini Commission Findings

- Out of 2,633 OBCs on central list, **~1,900 castes** have NOT benefited proportionately
- Half of 1,900 got **zero benefits**; other half got less than 3%
- Only **10 sub-castes** received 25% of OBC reservation advantages
- Profession-based castes like **Kalaigars** (tin polishers), **Sikligars & Saranias** (knife sharpeners) got almost no benefits
- Suggestion:** Fixed quota of 8-10% of 27% for ~1,900 underrepresented castes

CREAMY LAYER

What? Small section at top of marginalized community's socioeconomic hierarchy.

Origin: Supreme Court in **Indira Sawhney case (1993)** — "Exclusion of socially advanced members will make the 'class' a truly backward class."

Scope: Applies to OBCs only, NOT Dalits & Adivasis (most backward communities).

Debate: Scholars argue economic ceiling for reservation **misunderstands how caste works** — Dalits face discrimination even if well-off. E.g., 2014 Bihar temple cleaned after Dalit CM Jitan Ram Manjhi visited.

OBCs AMONG NON-HINDU COMMUNITIES

Community	Details
Muslims	3 main castes: Ashraf (nobles, Arab/Central Asian/upper caste converts), Ajlaf (commoners, low caste converts), Arzals (despicable, Dalit converts). Savarna Muslims = ~15% of Muslim pop. Eg: Mappilas of Kerala
Christians	Caste deeply embedded. Kerala: Syrian Christians (St. Thomas) practiced purity rules, ritual baths after Dalit contact. Goa: Portuguese surnames but Bamonns/Chardos vs Sudirs. Tamil Nadu: Paravar, Nadar, Adi Dravida Christians retain caste. North India: Chuhra/Chamar converts = "New Christians"

Hindu-Muslim OBC Anomaly in Reservations

- Problem:** Religiously restricted entries — Julahas (UP), Dhunias & Darzis (Bihar) have OBC status as Muslims but Hindu counterparts excluded
- Solution:** Justice Rohini Commission compiling data to **make backward class status independent of religion**

Debate on Non-Hindu Scheduled Castes

- Jan 2020: Supreme Court examining "religion-neutral" SC reservations
- Current: SC status limited to **Hindu, Sikh, Buddhist** faiths only (Para 3, SC Order 1950)
- **Justice Ranganath Misra Commission (2007) & Satish Deshpande & Geetika Bapna Report (2008)**: Recommended extension of SC benefits irrespective of religion
- 2022: **Justice K.G. Balakrishnan** Commission re-examining SC status for Dalit Christians & Muslims
- Key question: Should caste-based disadvantage, not religion, determine SC eligibility?

ANTI-CASTEISM MOVEMENTS AMONG MUSLIMS

Organization	Leader	Location
All India Backward Muslim Morcha	Dr Ejaz Ali	National
All India Pasmanda Muslims Mahaj	Ali Anwar	Bihar
All India Muslim OBC Organisation	Shabbir Ansari	Maharashtra

OBC SAFEGUARDS: SUCCESSES vs CHALLENGES

✓ SUCCESSES

- **Social:** Recognized as distinct category; 27% reservation in education & employment (Indra Sawhney, 1992)
- **Economic:** NBCFDC, Stand-Up India, PMMY → self-employment & skill training
- **Political:** Rise of OBC parties — Samajwadi Party (UP), RJD (Bihar), DMK (TN)

✗ CHALLENGES

- **Social:** Internal inequality; creamy layer corners benefits; EBCs & MBCs underrepresented; caste prejudice persists
- **Economic:** Limited access to credit, markets, land; no caste census after 1931
- **Political:** Elite capture by dominant sub-castes (Yadavs, Kurmis, Vokkaligas); underrepresented nationally

OBC Inclusion Procedure

Level	Steps
Central OBC List	1. State/UT Proposal → 2. MoSJE Review → 3. NCBC Examination (with anthropologist/economist) → 4. Cabinet Approval → 5. Presidential Notification (Art. 342A(1))
State OBC List	1. Community/Govt Request → 2. State Backward Classes Commission (SBCC) Evaluation → 3. State Cabinet & Legislature Approval → 4. Governor's Notification

CHAPTER 7.2 — SOCIAL CHANGE IN TRIBAL SOCIETIES

SCHOLARS ON SOCIAL CHANGE

Anderson & Parker

"Social change involves **alteration** in the **structure** and **functioning** of societal forms or processes."

Handwritten class annotation

Surinder Jodhka

Social change = change in **values, institutions and practices**.

Handwritten class annotation

SOCIAL CHANGE TIMELINE

Ancient: No change

Medieval: Less change

Colonial: More change

Post-Independence: Rapid change

PRE-INDEPENDENCE SOCIAL CHANGE

Causes of Social Change

- Introduction of **outsiders** in tribal areas
- Extension of **state authority**
- Commercialisation of **agriculture**
- **Hinduisation & Christianity** — Evangelisation
- Ethnic revolts & tribal movements

TRIBAL CLASSIFICATION BY CULTURAL PROCESS

B.K. Roy Burman (1970)

Classified tribes by **orientation towards Hindu society**:

Handwritten class annotation

Orientation	Description	Examples
Incorporated	Merged into Hindu society	Bhil, Bhumij
Positively Oriented	Moving towards Hindu society	Santhal, Oraons
Negatively Oriented	Resistant to Hindu society	Mizo, Naga
Indifferent	Unaffected by Hindu society	Arunachal tribals

Note: Burman later disassociated from this approach; useful for pre-colonial/colonial socio-cultural analysis only.

L.P. Vidyarthi & S.C. Dube

Classified tribes based on levels & stages of **acculturation** (assimilation towards dominant culture) of Hindu peasantry in different regions.

Handwritten class annotation

TRIBAL MOVEMENTS (Surajit Sinha, 1972)

 **Surajit Sinha (1972)**

Identified **five types of tribal movements**.

Handwritten class annotation

#	Movement Type	Examples
1	Ethnic Rebellious (18th-19th century)	Birsa movement (Mundas); Kol rebellion (1832); Santhal Rebellion by Sido & Kanhu (1855-56, Bihar) — against zamindars & moneylenders, turned anti-British; Naga rebellion (1880s)
2	Reform Movements	Bhagat movement (Oraon); Vaishnavite movement (Bhumij); Kehr movement (Santhals)
3	Political Movements (post-Independence)	Jharkhand movement (Chotanagpur & Orissa); Hill states movement (Assam & MP)
4	Secessionist Movements	Naga movement; Mizo movement
5	Agrarian Unrest	Naxalbari movement (1967); Birsadal movement (1968-69)

K.S. Singh — Two Phases of Ethnic Conflicts in Middle India

Phase	Period	Context	Key Rebellions
First	1795-1860	Rise & expansion of British empire	Chuar rebellion (1795-1800); Kol & Bhumij insurrections; Gond resistance (1819, 1842); Khond resistance (mid-1830s); Santhal insurrection (1855-59)
Second	1860-1920	Intensive colonialism; merchant capital; higher rent	Munda-Oraon Sardar Movement (1869-1895) by Birsa Munda ; Tana Bhagat Movement (1895-1901); Bhil's movement by Govind Giri

SOCIAL CHANGES — DOMAINS

Domain	Change	Details
Economy	Non-monetised to monetised	Tribal markets declined; barter exchange died;  K.S. Singh : commodity production on limited scale
	Peasantization & Depeasantization	Non-peasant tribes became peasants while landed tribals lost land & entered different economic system. Santhals, Oraon, Munda migrated to Assam tea plantations or became industrial labour/share-croppers
Polity	Customary to modern laws	Customary law replaced by centralized state law; new administrative & judicial organs; aided Hinduisation
Social	Ethnic conflicts	Prolonged isolation → own social structure & mechanism of social control. Tribal movements: ' Anti-Colonial ', ' Anti-Diku ', ' Pro-Ethnic '
Sanskritization	Moving towards caste system	Tribes moving to peasant/caste stratified system. Kshatriya model of Sanskritization most popular. Santhals & Gonds followed Sanskritization model
Kinship	Breakdown	Land alienation & migration broke kin relations; Adivasi women faced increased morbidity burden
Religion	Dilution of indigenous beliefs	Animism, sacred grooves etc. underwent dilution
	Christianity impact	Earliest agency of welfare but linked to colonialism; Youth Dormitories declined (replaced by churches); gave new self-respect & separate identity

Summary: Colonial transformation profoundly altered tribal life. Shift from **self-sufficient tribal systems** to **monetized, stratified, state-controlled societies**.

SOCIAL CHANGES POST-COLONIAL PERIOD

Chaudhary (1990)

In 'Tribal Transformation in India' (5 Vols.), highlighted salient facets of change: transformation from peripheral existence to **awareness of civic rights**; development has **not been up to expectations**; **elite class** has cornered developmental benefits.

Handwritten class annotation

Mr. Prabhu

Dominant groups like **Valmiki & Naika** communities cornered all developmental schemes; primitive tribes like **Jenu Kuruba & Soligas** left in the lurch.

Handwritten class annotation

"People of India Project" (Anthropological Survey of India) Findings

Finding	Details
Participation	Many tribes became entrepreneurs, businessmen, teachers, political leaders
Education	Educational levels doubled (8.53% to 16.35%, 1961-1981); ST literacy: 47.1% (2001) → 59% (2011)
Health	Decline in death rate; rise in birth rate; availing health & medical facilities
Mass media	Radio & TV coverage increased in tribal areas

CASE STUDIES BY LIVELIHOOD GROUP

Jenu Kuruba Hunter-Gatherers

Vast traditional knowledge of forests; now **helping forest department** in rearing elephants & collecting forest produce. Losing control over means of subsistence since colonial era.

Baviskar (1995)

Traced **criminality among Bhil & Bhilala** of Jhabua, MP to growing state control over forest resources & degradation of cultivable lands.

Handwritten class annotation

Gadgil & Guha (1992)

Pointed out artisan activities like **blacksmithing declining**; **Agarias & Asurs** took up agriculture. Availability of raw materials for basketry reduced; high bamboo prices by forest dept impoverished tribals.

Handwritten class annotation

Mahapatra

Study on **Santhals**: Out of 8 sub-groups, the **Murmu** (priest), **Mardi**, and **Tudu** — most influential & landed — gained the most from planning process, depriving other groups.

Handwritten class annotation

Livelihood Group	Key Changes
Hunter-Gatherers	Losing subsistence control; some turned to crime (Chenchu resettlement failure)
Artisans	Blacksmithing declining; Dhokda crafts among Dhurva (MP) — govt scheme deficiencies in training, tool-kits, marketing
Shifting Cultivators	Hit by govt forest policies; shifted to animal husbandry, plantation; Jhum land taken by forest dept → landless agricultural workers → wage earners in plantations
Settled Agriculturists	Adopting new methods (line sowing, manure pits); but elite sub-groups corner planning benefits

Modern Democratic Institutions & Tribes

Positive Impact:

- Greater representation & recognition of tribal rights
- Gond study: No clash between traditional & statutory panchayats — they **coexist**

Negative Impact:

- Conflict between modern governance & traditional political institutions
- Traditional panchayats restricted to marital disputes

Summary: Post-Independence development brought **both progress & disparity**. Education, health, political participation improved but uneven implementation & elite capture meant **vulnerable groups remained marginalized**. Social change = uneven & incomplete.

CHAPTERS 7.2 & 9.1 — DEVELOPMENTAL PROGRAMMES & WELFARE MEASURES

TRIBAL WELFARE SCHEMES

TSP (1974)

Ekalavya Schools

Vanbandhu Kalyan

MFP-MSP Scheme

PM Van Dhan Yojana

ITDP

Friends of Tribes

TRIFED (1987)

GOVERNMENT SCHEMES SUMMARY TABLE

#	Scheme	Year	Objective	Key Features
1	Tribal Sub-Plan (TSP)	1974	Financial allocations proportionate to ST population; reduce poverty & unemployment	8.6% of central budget earmarked (Census 2011); 30 ministries + 23 states + 4 UTs; funds non-divertible & non-lapsable ; NOT applicable where tribals >60% pop. BD Sharma : Fifth Schedule & TSP = "co-equal pillars of tribal empowerment." First proposed by UN Dhebar Commission (1961)
2	Ekalavya Model Residential Schools	—	Quality middle & high education for STs	Centrally Sponsored; at par with Navodaya Vidyalayas; blocks with >50% & 20,000+ tribal pop; 100% grant from Ministry of Tribal Affairs
3	Vanbandhu Kalyan Yojana	—	Quality of life, education, infrastructure, protect culture	Central scheme; oversees other tribal sub-plan schemes
4	MFP-MSP Scheme	—	Fair prices for Minor Forest Produce gatherers	MSP for MFP; implemented in 21 states; infrastructure at local level
5	PM Van Dhan Yojana	—	Skill building, value addition for MFP	Part of MFP-MSP scheme; Van Dhan Vikas Kendras (VDVKs) = 15 tribal SHGs × 20 gatherers each; 100% central funded; training, branding, marketing, logistics
6	ITDP	5th FYP	Reduce poverty, improve education, eliminate exploitation	Under TSP; PEO evaluation (1996) found: decentralized planning not operational ; delivery system ineffective ; inadequate primary education & health
7	"Friends of Tribes"	—	Promote tribal livelihoods via CSR	By TRIFED; products under Tribes India brand on Amazon, Flipkart

TRIFED (1987)

Aspect	Details
Est.	1987, under Ministry of Tribal Affairs
Role	National-level cooperative body for socio-economic development of STs through marketing, value addition, capacity building
MSP for MFP	Nodal agency for procurement; prevents middlemen exploitation
Van Dhan Vikas Yojana	Value addition, entrepreneurship, skill training via VDVKS
Market & Promotion	"Tribes India" retail outlets; e-commerce; Aadi Mahotsav exhibitions; works with state-level federations, NGOs, SHGs

WADI Programme (NABARD)

- NABARD-funded **Tribal Development Programme**; 5,394 acres promoted benefiting 5,550+ families
- 5,500 tribal marginal farmers → yearly income increased from ₹20,000 to ₹30,000
- Multi-cropping → food & nutritional security

TSP Budget Gap: Allocation of ₹89,265.12 crore = only **2.26% of total expenditure**, far below 8.6% required.

7 CHALLENGES IN TSP IMPLEMENTATION (Planning Commission, 2013)

#	Challenge	Details
1	No Unified Planning/Monitoring	Multiple ministries execute independently; no single nodal agency; duplication & fragmented accountability
2	Weak Central-State Convergence	No synchronized framework; overlapping projects; states treat TSP as accounting formality, diverting funds
3	Scattered Financial Resources	Thinly spread across small projects; short-term/symbolic initiatives dominate
4	No Location-Specific Planning	Lacks context-sensitive micro-planning for ecological, cultural & socio-economic diversity; uniform designs ignore PVTGs, pastorals, forest-dependent communities
5	No Systematic Gap Analysis	No comprehensive baseline assessment; allocations misaligned with ground realities
6	Weakening of Institutions	ITDA/ITDP/Tribal Research Institutes & Micro Projects weakened
7	Misuse of TSP Funds	Funds used for: tribal displacement for mining; highways for mineral transport; purchasing choppers; repairing jails in Jharkhand

Way Forward (Verrier Elwin & L.P. Vidyarthi): Tribal development must let communities grow "according to their own genius." Balance material progress with cultural happiness through **culturally sensitive, participatory, rights-based approaches**. Involve all stakeholders — administrators, anthropologists, and most importantly, **tribals themselves**.

HANDWRITTEN ANNOTATIONS — COMPLETE SCHOLAR REFERENCE

 Scholar	Contribution / Context	Section
K.R. Saxena	Compiled NHRC statistics on Dalit deprivation (37% BPL, 54% undernourished etc.)	Ch 7.1 — SC Exploitation
Ajit Donker & Saxena	2012 study: 93% board members from upper castes, 3.5% SC/ST in 1000 firms	Ch 7.1 — SC Political Causes
Sukhdeo Thorat Committee	Addressed discrimination in educational institutions	Ch 7.1 — SC Initiatives
Kalekar Commission	1st BCC (1955); recommended caste as criteria — rejected by govt	OBCs
Mandal Commission	2nd BCC (1980); recommended 27% reservation for OBCs	OBCs
Anderson & Parker	"Social change involves alteration in structure & functioning of societal forms"	Ch 7.2 — Social Change
Surinder Jodhka	Social change = change in values, institutions, practices	Ch 7.2 — Social Change
