

TRIBAL INDIA — L-65 Comprehensive Notes

Paper 2 | Chapter 7.3 | Sarathi IAS (Nataraj Sir) | Handout 5 — Team Avengers
Ethnicity | Ethnic Conflicts | Regionalism | Naxalism/LWE | Pseudo-Tribalism | Youth Dormitories

1. ETHNICITY — Concept & Perspectives

ETHNICITY

Self-consciousness of a group

Race, Region, Religion, Language

Common ancestry & heritage

Sense of belonging vs. Division

Challenge for Indian nation-state

6 Connotations of Ethnicity

 **John Hutchinson & Anthony D. Smith**

6 connotations: Common **Name** → Myth of common **Ancestry** → **Memories** of common past → Common **Culture** (religion, custom, language) → Link with **Homeland/Region** → Sense of **Solidarity**

Three Perspectives on Ethnicity

Approach	Scholars	Core Idea	Criticism
Primordial	 Edward Shils (1957) & Clifford Geertz (1961)	Ethnic identity is born with us , not chosen; based on deep emotional ties (blood, religion, language); conflict = identity threatened	Humans have multiple identities; even one language group differs in accent, customs
Instrumentalist	 Paul Brass (1991), Ted Gurr, Abner Cohen	Identity is constructed & used by elites (politicians, religious leaders); ethnicity = tool for power, resources	Assumes people are easily manipulated; ignores strong cultural attachments
Situated Primordial	 Carsten Wieland	Combines both : identity partly given (primordial) + strategically activated by elites (instrumentalist)	Offers most balanced understanding; explains both emotional bond & elite mobilisation

2. ETHNIC CONFLICTS & TRIBAL MOVEMENTS

 **Surajit Sinha's 5 Types of Tribal Movements (1972)**

#	Type	Examples	Context
1	Ethnic Rebellious	Birsa (Mundas), Kol (1832), Santhal (1857-58), Naga (1880s)	British rule — 18th & 19th century
2	Reform	Bhagat (Oraon), Vaishnavite (Bhumij), Kehr (Santhals)	Emulating higher Hindu castes
3	Political	Jharkhand (Chotanagpur), Hill States (Assam, MP)	Post-Independence; tribal states within Indian Union → Positive Regionalism
4	Secessionist	Naga & Mizo movements	Separate country demands → Negative Regionalism
5	Agrarian Unrest	Naxalbari (1967), Birisadal (1968-69)	Land & livelihood issues

Major Rebellions — Quick Comparison

Rebellion	Leaders	Factors (S-E-P)	Consequence	Key Points
Santhal	Kanu & Siddu	S: New land ownership disrupted collective holding E: High taxes, moneylender exploitation, land alienation P: Landlords + British sided with exploiters; courts unhelpful	Attacked police & moneylenders → Army crushed rebellion → Leaders arrested → Subsided after 1 year	Classic example of colonial exploitation pushing tribals to revolt
Munda	Birsa Munda	S-R: Adopted Hinduism/Christianity with false hope E: Priests became landlords; high taxes; poverty P: British sided with landlords; police power to landlords	6,000 Mundas rebelled → Birsa arrested (Ranchi prison) → Released, led 2nd rebellion → Crushed by army	Led to settlement & survey operations in Ranchi district
Naga	Charles Pawsey, Zapu Phizo	Separatist tendency; fear of losing cultural identity in "ocean of Hindu nationalism"; Pawsey (1945) planted secession idea	Formation of Nagaland state (1952) ; secessionist tendency continues under Greater Nagalim	🔪 M. Alemchiba Ao: Govt's lack of knowledge of tribal interests = main cause
Mizo	Laldenga (MNF)	Geo: Alienated from India, poor communication Religion: Christian missionaries widened gap China & Pakistan fueled rebellion	1954: Demand for Mizoland → 1966: MNF armed campaign → 1970: Meghalaya created → 1971: Mizoram UT → 1987: State	Peace Accord 1986 (Rajiv Gandhi-Laldenga); Mizoram = most peaceful + high literacy today

3. TRIBAL DISCONTENT & POLITICAL DEVELOPMENTS

Reasons for Tribal Discontent

Reason	Details	Key Legislation / Measures
Harsh forest laws	Regulated rights over forest land & produce	Indian Forest Act, 1927
Inability of legislation to protect land	Transfer of tribal land continues	Chotanagpur Tenancy Act (1908) — restricts transfer to non-tribals Santhal Pargana Act (1949) — no transfer even for public purposes
Ineffective rehabilitation	Displaced but not resettled properly	Refer R&R handout
Inadequate credit facilities	Tribal indebtedness persists	MP Govt 2019: Waived ST loans from unlicensed moneylenders (Amendment to Anusuchit Jan Jaati Sahukar Viniyam 1972)
Delayed implementation	Recommendations not acted upon	K.S. Singh Committee, Xaxa Committee (2013) , Dhebar Commission (1960), Bhuria Commission (2002)

Political Developments (Constituent Assembly)

Committee / Sub-Committee	Headed By	Focus
Advisory Committee on Fundamental Rights, Minorities and Tribal and Excluded Areas	Sardar Patel	Overarching body
Minorities Sub-Committee	H.C. Mukherjee	Minorities
NE Frontier Tribal Areas & Assam Excluded Areas Sub-Committee	Gopinath Bardoloi	NE tribes
Excluded & Partially Excluded Areas (other than Assam) Sub-Committee	A.V. Thakkar	Central India tribes

Key insight: Tribal rebellion is **not a sudden outburst** but a result of **prolonged socio-economic-political exploitation** pushing them beyond tolerance.

4. REGIONALISM — Concept & Dimensions

REGIONALISM

Ideology + Political movement

Linguistic / Religious / Ethnic identity

Positive: Brotherhood, autonomy, self-determination

Negative: Excessive attachment, threatens unity

Jharkhand | Naga | Mizo | Zeliangrong

Key Definitions

 **Sulli Mukherjee**

Regionalism = process of **self-determination** on linguistic, religious or ethnic lines which **challenges sovereignty** and hinders nation-building.

 **David L. Sills (1968)**

Region = "a **homogenous area** with physical and cultural characteristics distinct from neighboring areas" — has both **territorial reference** and **socio-cultural/psychological consciousness**.

Positive vs. Negative Regionalism

Positive Sense	Negative Sense
- Inspires brotherhood & unity; protects regional interests - Builds nation if demands accommodated by political system - Statehood / autonomy gives self-determination Internal self-determination = predominant form in India - E.g.: 3 Tribal Autonomous District Councils in Mizoram → democratic platform → reduced political extremism - Balanced development; socio-cultural diversity respected	Excessive attachment to one's region - Threat to unity and integrity of country - People identify more with region than nation - Nationalism undercut by regionalism

5 Reasons for Regionalism in India

#	Reason	Example	Key Details
1	Economic Backwardness & Exploitation	Jharkhand	Part of Bihar; rich minerals but underdeveloped; land alienation, mining displacement → Jharkhand state (2000)
2	Unmet Expectations from State	LWE Areas (Chhattisgarh, Odisha, Jharkhand, AP)	Governance failure; tribal & landless groups excluded → regional discontent exploited by extremists
3	Neglect of Local Aspirations	Telangana	Water sharing, employment, resource allocation injustice → Telangana state (2014)
4	Insecurity & Fear of Domination	Gorkhaland (Darjeeling, WB)	Cultural & linguistic marginalisation of Nepali-speaking Gorkhas → GTA formed but discontent continues
5	Quest for Self-Identity	Linguistic Regionalism	Karnataka: Kannada Rakshana Vedike Maharashtra: Samyukta Maharashtra Movement (1950s-60s) Tamil Nadu: Dravidian movement → DMK party

5. TRIBES & REGIONALISM — 4 Key Movements

Movement Comparison Table

Movement	Region / Tribes	Key Leaders / Orgs	Reasons	Outcome
Jharkhand	Bihar, WB, MP, Orissa	JMM, AJSU ✎ Dr. Ram Dyal Munda	Rampant corruption → forest denudation; uncontrolled land alienation ; underdevelopment despite projects on tribal lands	Jharkhand state (2000) ✎ Munda: "Gross mismanagement led to virtual disappearance of forests — mainstay of Jharkhand economy. Original landowners became destitutes."
Naga	Nagaland	Angami Zaphu Phizo , Naga National Council	Outsiders settled in hills → economic exploitation, alienation, insecurity	Declared independence (1951); armed struggle; some agreements made → insurgency reduced but not ended
Zeliangrong	Assam, Manipur, Nagaland	Jadonang, Rani Gaidinliu , ZPC (1980)	Minority tribe; state govt neglected development; exploitation	Demanding integration of Zeliangrong areas; largely free from violence
Mizo	Mizoram (was part of Assam)	Laldenga (MNF, 1937-1990)	Autonomous district within Assam; Assam govt failed to respond to Great Famine of 1959 ; MNF guerrilla war; Pakistan support	Peace Accord 1986 (Rajiv Gandhi-Laldenga); full statehood; MNF gave up secession; Laldenga = CM. Today: most peaceful, high literacy

✎ M.N. Srinivas (Conclusion on Regionalism)

Regionalism can **never be tackled as merely a law and order problem** — should be tackled with **care, sympathy, and appreciation of long-suppressed tribal aspirations**.

6. UNREST AMONG TRIBAL COMMUNITIES — Naxalism / LWE

NAXALISM / LWE

"Jal, Jangal, Zameen" exploited

Decades of tribal oppression

Parallel government (Alpna Sran)

Security issue + Socio-economic problem

Way Forward: Hearts & minds (Varad Pandey)

Alpna Sran

Naxals function like a **parallel government** ("jungle sarkar"), enjoying confidence and support of tribal people. They start by attacking police & local elites, then 'tax' economic activities.

Why Tribals Support Naxals — Tendu Leaves Example

- Key revenue = collection & **sale of Tendu leaves** (for beedis)
- Earlier controlled by **upper-caste elites** — low wages, all profits
- Naxals came → **doubled wages**, awarded contracts to Adivasis
- Rerouted 'tax' to **schools, medical camps, clinics**

6 Root Problems Fuelling LWE

Problem	Details	Case Study	Scholar
1. Unemployment & Poverty	Lack of development in tribal areas → less employment → educated tribal youth attracted to Naxals	Jharkhand & Chhattisgarh: mining displaced youth without alternative jobs	 Walter Fernandes (1996): "First victims of displacement and first recruits for rebellion"
2. Tribals as "Victims of Progress"	Projects in forest/tribal lands → displacement; not even 20% rehabilitated (Planning Commission)	Sardar Sarovar Dam: Bhil & Tadvi tribals; only 17% rehabilitated	 Walter Fernandes & Stan Jebaraj: "Development-induced displacement" — tribals = sacrificial goats of progress
3. Displacement & Forced Evictions	Forcibly removed for mining, irrigation, power; no adequate compensation	Kalinga Nagar (Odisha, 2006): Tata Steel project → 13 tribal protesters dead → intensified Maoist influence	—
4. Forest & Livelihood	Inadequate forest access → food insecurity; disrupted traditional livelihoods; denied CPR rights	Forest Conservation Act (1980): restricted shifting cultivation in Bastar → affected Muria & Maria Gonds	 Roy Burman: Loss of forest access severs "ecological and cultural lifeline" of tribal society
5. Land Related	Failed to recognise traditional rights; poor enforcement of 5th Schedule protections; illegal occupation by non-tribals	Khammam district (Telangana): Non-tribals occupied podu lands; FRA implementation <40%	 B.D. Sharma: "Land alienation = single most powerful cause of tribal discontent — root of their revolt"
6. Failing to Implement Provisions	PESA, FRA etc. exist but implementation is weak	PESA Act (1996): Mining leases in Dantewada & Korba granted without Gram Sabha consent	Xaxa Committee (2014): State's neglect of PESA & FRA = "structural violence"

Expert Group Recommendations (Planning Commission, 2006)

Recommendation	Details
Open Approach	Not security-centric; address root causes
Land's Role in LWE	Recognise pivotal role of land in growth of LWE
Land Distribution	Ensure landless individuals receive land
Better FRA Implementation	Urgent need for effective FRA 2006 implementation
Curb Misuse of Power	Check misuse by forest & police officials in tribal areas
Check Land Acquisition Act Misuse	Scrutinise eminent domain misuse
Highlight Corporate Impact	Negative impact of MNCs on tribal communities

Case Studies on Tribal Unrest

Case Study 1: Essar & Maoist-Affected Mining Belt (Chhattisgarh)

Dantewada region, Chhattisgarh | 2010 WikiLeaks cable

- **Essar Group** compelled to pay "**protection money**" to Maoist groups for safety of property & staff
- Even large MNCs are **helpless under extremist threats**
- **Impact:** Adivasis caught between Maoist coercion & state militarisation → displacement, forest access loss, livelihood erosion
- Initiatives like **Salwa Judum** fractured intra-tribal relations

Case Study 2: Salwa Judum & Supreme Court Verdict (2011)

Dantewada & Bijapur, Chhattisgarh | Launched 2005

- *Salwa Judum* = "peace march" (Gondi) — **state-supported vigilante movement**
- Tribal youth armed as **Special Police Officers (SPOs)** with minimal training
- Intended as community defense → led to **widespread violence, displacement, rights violations**
- **SC (2011, Justices Sudershan Reddy & Nijjar):** SPOs & Koya Commandos declared **illegal & unconstitutional** under **Articles 14 & 21**
- **Impact:** Thousands displaced; trust breakdown; verdict reinforced counter-insurgency must remain within **constitutional limits**

Way Forward for LWE

Strategy	Details & Examples
Livelihood Initiatives	SHGs, access to credit & marketing → financial independence
Upgrading Infrastructure	Road networks via specialised govt agencies (not local contractors → avoids extremist opposition)
Forest Rights Protection	Effective FRA 2006 implementation; E.g.: Gadchiroli (Maharashtra) — Gram Sabhas manage bamboo & tendu under FRA → reduced alienation & Maoist sympathy. Elinor Ostrom: community-based resource governance = sustainable & conflict-resolving
Address structural roots	Xaxa Committee (2014) — tackle displacement, poverty, alienation

 Varad Pandey (Way Forward)

LWE is a **security + political + development** issue. "We will not end this war by bullets alone; we will win it only if we **win over hearts and minds.**" → Enable grassroots political mobilisation, improve delivery of development schemes (FRA), ensure fair-benefit sharing → **bridge the trust deficit.**

7. PSEUDO-TRIBALISM

PSEUDO-TRIBALISM

Non-tribals seek ST label

For education & employment benefits

Dilutes genuine ST rights

Gujjars | Assam 6 | Meitei | Narikkuravar

Definition: Phenomenon where groups attempt to create/reinforce tribal identity **without historically legitimate claim** — to enjoy concessions in education & employment.

ST Identification Criteria (Presently Followed)

- Indications of **primitive traits**
- **Distinctive culture**
- **Geographical isolation**
- **Shyness of contact** with community at large
- **Backwardness**

Note: These criteria are NOT spelt out in the Constitution.

Case Studies of Pseudo-Tribalism

1. Gujjars of Rajasthan

Rajasthan | Demand since 2006

- Demanding **5% reservation** under Special Backward Classes (SBC)
- Covered under **OBC reservation since 1994**
- 🗡️ **Chopra Committee Report** → Gujjars cannot be given ST status → settled for SBC
- 2008: Vasundhara Raje BJP govt — 5% SBC bill for Gujjars + 4 communities (Banjara/Baldia, Labana, Gadia-Lohar, Raika/Rebari, Gadaria)
- HC stayed (2010) → Repealed → New bill (2015) → HC struck down (2016) — crossed **50% ceiling**
- 2017: Tried raising OBC quota 21% → 26% → also struck down
- 🗡️ Leader: **Colonel (Retd.) Kirori Singh Bainsla** — uprooted railway tracks in Hindaun City, Karauli (2006)

2. Six Communities in Assam

Assam

- **Koch-Rajbongshi, Tai-Ahom, Chutia, Matak, Moran, Tea Tribes** demanding ST status
- All Assam Tribal Sangha & CCTOA **opposing** — especially Koch-Rajbongshi & Tai-Ahom (ruled large areas in medieval period)

3. Meitei of Manipur

Manipur

- **Dominant Meitei community** wants ST status; demand discussed since **1981**
- Tribals fear "Meitei millionaires" will **encroach on tribal land**
- Meitei elites (Vaishnav Hindus) earlier vetoed it — saw ST tag as "affront to status"
- Meiteis **abandoned traditional Sanamahi faith** → converted to Hinduism (late 17th-early 18th century)
- 2012: Renewed demand via ST Demand Committee → memorandums to PM Manmohan Singh

4. Narikkuravar of Tamil Nadu (Genuine Case)

Tamil Nadu | Included 2022

- **Nomadic, hunter-gatherer** community; traditional **bead-making & hunting**
- Faced social exclusion, poverty, low literacy
- Earlier: **MBC in Tamil Nadu**; already ST in Karnataka & AP
- **2022: Union Govt approved ST inclusion** — constitutional protection, reservation, welfare access
- Recognises **distinct socio-cultural identity**

8 Impacts of Granting ST Status to Non-Tribals

#	Impact	Details
1	Dilution of Benefits	Reduces access to education, employment, political representation for genuine STs
2	Further Marginalisation	Already deprived tribals face more competition for limited quotas
3	Distortion of Policy Purpose	Affirmative action meant for historically isolated groups; extending to non-tribals undermines constitutional intent
4	Erosion of Tribal Identity	Blurs distinct cultural & ethnographic identity
5	Political Manipulation	Driven by vote-bank politics , not socio-anthropological need
6	Administrative Complexity	Frequent additions → monitoring & welfare implementation difficult
7	Violation of Ethnographic Criteria	Lokur Committee (1965) : ST = distinct culture, geographical isolation, social backwardness
8	Social Tensions	Resentment & inter-group conflicts (e.g., Assam, Tripura)

8. YOUTH DORMITORIES

YOUTH DORMITORIES

Found worldwide among tribals

Mono-sexual & Bi-sexual types

Functions: Economic + Social + Magico-religious

Declining: Modernisation, conversion, displacement

Bukumatula (Trobriand) — Malinowski (1929)

Malinowski (1929)

Finest example: **Bukumatula** of Trobriand Islanders — described in "*The Sexual Life of Savages in North-Western Melanesia*"

Types of Youth Dormitories

Tribe	Dormitory Name	Type	Scholar
Konyak Nagas (Boys)	Ban	Mono-sexual	✎ Majumdar — extensive study on Indian youth dormitories
Konyak Nagas (Girls)	Yo	Mono-sexual	
Oraons	Dhumkuriya	Bi-sexual	—
Murias/Gonds (Bastar)	Ghotul	Bi-sexual	—
Ho tribe	Giitora	—	—
Munda (Jharkhand)	—	—	—
Nagaland tribes	Morung	—	—

Origin — Theories (Controversial)

Scholar	Theory
✎ Hodson	"Survival" of communal houses — designed to promote community living & sharing of resources
✎ Grigson	Study of Hill Marias → traditional societies didn't view home as appropriate for sexual activity; dormitories = separate sexual activity from home
Others	Designed to prevent incest — avoiding close familial relationships
Others	To protect children from witnessing sexual activity

Location: Specially built buildings on the **outskirts of the village** — activities without disturbance.

Functions of Youth Dormitories

✎ **S.C. Roy — Among Oraons (3-fold)**

1. **Economic organisation** for food quest
2. Training in **social & other duties**
3. Performance of **magico-religious ceremonies**

✎ **Singh — Among Gonds**

1. **Joint economic pursuits**
2. Training in **social & sexual behavior**
3. For **accommodation**

7 Factors for Decline of Youth Dormitories

#	Factor	Details	Example / Scholar
1	Cultural Contact & Religious Conversion	Missionaries criticised dormitories as "immoral" / "heathen"	Murias & Gonds of Bastar — missionaries discouraged <i>ghotul</i>
2	Modern Education	Formal schooling replaced traditional youth education	Verrier Elwin (1947): Modern schools → neglect of <i>ghotul</i> & <i>dhumkuria</i>
3	Urbanisation & Migration	Exposure to urban lifestyles; youth migrate for labour/education	Ho & Munda youth (Jharkhand) → moved to towns, abandoned <i>giitora</i>
4	Loss of Autonomy & Cultural Inferiority Complex	Tribal values mocked as "primitive"; internalised stigma	Ho tribes now deny existence of <i>giitora</i> to appear "modern"
5	Development Projects & Displacement	Dams, mines, industries → displacement; resettlement areas lack setting for dormitories	Hirakud Dam & Rourkela Steel Plant fragmented tribal communities
6	Governmental Neglect	State policies = welfare schemes, not cultural preservation; no support to revive dormitories	—
7	Change in Economic Structure	Subsistence → cash economy; individual wages reduce community interdependence	Collective labour & social training functions weakened

 Sachidananda (on decline of dormitories)

"This institution is **breathing its last**. In several villages the only thing left in the name of Dhumkuriya is a **dilapidated and neglected house** standing as a memorial to a great social institution of tribal folks."

9. KEY ACTS, POLICIES & COMMITTEES

Important Acts & Policies

Act / Policy	Year	Significance
Indian Forest Act	1927	Regulated rights of tribals over forest land & produce
Chotanagpur Tenancy Act	1908	Restricts transfer of tribal land to non-tribals (Jharkhand)
Santhal Pargana Act	1949	No transfer even for public purposes (education, medical, urbanisation)
Forest Conservation Act	1980	Restricted shifting cultivation & forest produce collection
PESA Act	1996	Mandates Gram Sabha consultation in Scheduled Areas
FRA (Forest Rights Act)	2006	Recognition of forest rights of STs & other forest dwellers
Anusuchit Jan Jaati Sahukar Viniyam	1972	MP amendment (2019): waived ST loans from unlicensed moneylenders

Important Committees

Committee	Year	Significance
Advisory Committee (Sardar Patel)	CA period	Sub-committees: Mukherjee (Minorities), Bardoloi (NE), A.V. Thakkar (Excluded Areas)
Dhebar Commission	1960	Tribal welfare recommendations
Lokur Committee	1965	Criteria for ST identification: distinct culture, geographical isolation, social backwardness
K.S. Singh Committee	—	Tribal welfare
Bhuria Commission	2002	Tribal welfare recommendations
 Chopra Committee	—	Gujjars cannot be given ST status
Expert Group (Planning Commission)	2006	LWE: open approach, land distribution, FRA, curb misuse
Xaxa Committee	2013-14	"Structural violence" from state's neglect of PESA & FRA

QUICK-REVISION CHEAT SHEET (Last-Minute Scan)

Topic	Key Scholars	Key Points (Keywords)	Key Case Studies	Main Examples
Ethnicity	📌 Hutchinson & Smith (6 connotations); 📌 Shils & Geertz (Primordial); 📌 Brass, Gurr, Cohen (Instrumentalist); 📌 Wieland (Situating Primordial)	Self-consciousness; race-region-religion-language; born-with vs constructed vs combined; sense of belonging vs division	India: autonomy demands, secessionist movements	NE India insurgencies; ethnic conflicts
Tribal Movements	📌 Surajit Sinha (1972) — 5 types	Ethnic rebellious → Reform → Political → Secessionist → Agrarian unrest	Santhal (Kanu-Siddu); Munda (Birsa); Naga (Phizo); Mizo (Laldenga)	Kol 1832; Naxalbari 1967; Birsadal 1968-69
Rebellions	📌 M. Alemchiba Ao (Naga conflict); Laldenga (MNF founder)	Social-Economic-Political exploitation; land alienation; moneylenders; British sided with exploiters	Nagaland 1952; Peace Accord 1986; Greater Nagalim	Santhal, Munda, Naga, Mizo rebellions
Regionalism	📌 Sulli Mukherjee; 📌 David L. Sills (1968); 📌 M.N. Srinivas	Self-determination; homogenous area; positive (autonomy) vs negative (excessive attachment); not just law & order	Jharkhand 2000; Telangana 2014; Gorkhaland GTA; Mizoram ADCs	DMK (Tamil Nadu); Kannada Rakshana Vedike; Samyukta Maharashtra
Tribal Regionalism	📌 Dr. Ram Dyal Munda; Jadonang & Rani Gaidinli; Angami Phizo	Forest mismanagement; land alienation; outsider exploitation; guerrilla war; peace accords	Jharkhand (JMM/AJSU); Naga (NNC); Zeliangrong (ZPC); Mizo (MNF)	Great Famine 1959 → Mizo rebellion
Naxalism / LWE	📌 Alpna Sran (parallel govt); 📌 Walter Fernandes (victims of displacement); 📌 B.D. Sharma (land alienation); 📌 Roy Burman (forest lifeline); 📌 Varad Pandey (hearts & minds); Elinor Ostrom (community governance); Xaxa Committee (structural violence)	"Jal jangal zameen"; jungle sarkar; Tendu leaves; <20% rehabilitated; 6 root problems; security + socio-economic; bridge trust deficit	Essar-Dantewada (protection money); Salwa Judum (SC 2011 — Arts 14 & 21); Kalinga Nagar (2006); Sardar Sarovar Dam; Gadchiroli (FRA success)	Jharkhand/Chhattisgarh mining; Khammam podu lands; Muria & Maria Gonds
Pseudo-Tribalism	📌 Chopra Committee; 📌 Col. Kirori Singh Bainsla; Lokur Committee (1965)	Non-tribals seek ST label; 5 ST criteria (not in Constitution); 50% ceiling; vote-bank politics; 8 impacts	Gujjars (Rajasthan); 6 communities (Assam); Meitei (Manipur); Narikkuravar (TN — genuine, 2022)	Koch-Rajbongshi & Tai-Ahom opposition; Meitei Sanamahi-to-Hindu conversion
Youth Dormitories	📌 Majumdar (types); Malinowski (Bukumatula 1929); 📌 Hodson (communal houses); 📌 Grigson (Hill Marias); 📌 S.C. Roy (Oraon functions); 📌 Singh (Gond functions); Verrier Elwin (decline); Sachidananda (breathing its last)	Mono-sexual vs bi-sexual; outskirts of village; economic + social + magico-religious; 7 decline factors; cultural inferiority complex	Konyak Nagas (Ban/Yo); Oraons (Dhumkuriya); Gonds (Ghotul); Ho (Giitora); Morung (Nagaland)	Hirakud Dam & Rourkela Steel Plant displacement; Ho denying giitora
